

8. BIBLIOGRAPHY

Over 300 references have been collected on remote sensing, seafloor mapping and habitat classification. Searches include online database and internet sources, published literature, technical reports and trade journals, and conference proceedings. Full references with abstracts (as available) are digitally archived in EndNote database.

9. ACKNOWLEDGEMENTS

This work would not have been possible without the generous contributions from numerous colleagues and partner institutions sharing our interest in and commitment to exploring and mapping nearshore marine habitats. Our thanks to: S. Blasco, G. Greene, M. Yoklavich, D. Ventresca, M. Gingras, J. Paris, B. Woodruff, Geological Survey of Canada, C. Malzone, Triton-Elics International, T. Anderson, R. Anyma, B. Appelgate, B. Apsy, R. Armstrong, J. Borgeld, G. Borstad, D. Bray, M. Buckingham, J. Burns, M. Caballero, A. Cameron, F. Campbell, P. Campell, D. Carlson, C. Carpenter, M. Carr, J. Castro, D. Caulfield, T. Cawood, P.S. Chavez Jr., D. Clague, M. Clancy, J. Clynch, G. Cochrane, E. Coffman, I. Colburn, B.W. Coles, L. Cooper, R. Cosgrove, T. Curan, P. Dartnell, J. Dasler, G. Davis, C.
